

THE CHARLEROI MAIL

VOLUME XX—NO. 91

CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, SATURDAY, SEPT. 20, 1919

TWO CENTS

ASKS FOR AN INVESTIGATION OF THE PRIMARY ELECTION VOTE

District Attorney Baum Requests Close Scrutiny of Some Districts

IRREGULARITIES ARE ALLEGED

As an aftermath of the primary election of last Tuesday, District Attorney Isaac W. Baum, a candidate for district attorney on the Republican ticket, and who, according to official returns, was defeated by Erwin Cummins, may ask an investigation of the vote in several precincts of the county which showed large votes for Mr. Cummins.

It is understood that it will be alleged that there were irregularities in the voting in some of these precincts, particularly at Marianna, where the vote was overwhelmingly against Mr. Baum.

Preceding the beginning of the official county Friday afternoon Mr. Baum appeared before Judge McIlvaine and asked that certain precincts be set aside for the time being, in order that he might be allowed, if he saw fit, to ask an investigation of any irregularities.

The districts asked to be set aside temporarily are Marianna, Donora, Bentleyville, Houston, Canonsburg, Cecil fifth and Midway. The court, also, upon request of Mr. Baum, permitted him to have two representatives present during the count.

That there were irregularities was incidentally revealed on Friday when the vote of Cecil township, fourth precinct, was reached.

It was found that in this precinct 56 persons were permitted to cast ballots who were not registered. Under the law, it is held, these votes should be thrown out.

Mr. Baum, it is said, is not contemplating a contest of Cummins' nomination, but simply is asking for an investigation of any irregularities.

FIRE DESTROYS TANK AND TRUCK

A tank truck, owned by the Atlantic Refining company, and driven by Thos. McCrory of Fayette City, was destroyed by fire a short distance above the Maple creek bridge on the Speers road about 8:30 this morning. The tank was loaded with 655 gallons of gasoline and the driver was on his way to Donora at the time when the fluid was ignited by back fire in the carburettor. The Charleroi fire company was called, but found it impossible to save the machine, tank or contents. McCrory, as soon as the gasoline caught fire, jumped from the machine and was uninjured. The truck is a complete loss.

Advertise your wants in the Classified column of the Mail.

NIGHT SCHOOL AT CALIFORNIA NORMAL

A night school is being organized at the California Normal to give the young men of that community an opportunity for educational work. Contemplated courses are chemistry, algebra, arithmetic, bookkeeping and English. If there is a demand for other subjects an attempt will be made to meet them.

MUCH SMOKE AT 10TH STREET FIRE

The fire department was called out Friday afternoon by a fire on Tenth street, above Lincoln. A frame residence had caught fire from a kitchen stove and was making great headway when the truck arrived. The firemen were greatly bothered by smoke, which almost suffocated them for a time, but after the water was turned on it did not take long to subdue the flames. Two upstairs rooms and the roof were badly damaged and it will require several hundred dollars to make the necessary repairs. It was learned after the fire that the smoke was caused by the heavy paper with which the kitchen upstairs was lined, there being no lath or plaster on the walls.

ENTERTAINED FOR RETURNED SOLDIERS

An informal reception for the members of the First Presbyterian church who have returned from service in the Army and Navy was held on Friday evening, under the auspices of the mens bible class.

Music for the evening was furnished by an orchestra under the leadership of Prof. I. T. Daniel and several pleasing numbers were rendered. After an entertaining hour of "stunts" and other diversions, an appetizing lunch was served. This lunch was prepared exclusively by the men under the direction of some of the members who have just returned from an extended camping tour. The "eats" were capably distributed by the young men of Lee's Showers class. During the social hour following, Major H. J. Repman talked interestingly of his experiences in France telling his audience that exactly one year ago he was on his way to the front. When urged to tell more, the Major modestly declined but kindly promised to give another talk at an early date.

The only reason why women should want to wear leather coats is the inevitably fabulous price.

Return Board Now Counting Votes of the Primary Election

From unofficial but complete returns from the primaries of last Tuesday it is shown that William E. Lane has won the nomination for director of the poor over H. D. Browneller, his nearest opponent, by 225 plurality. W. W. Hawkins is the other nominee.

The returns also show that Alex Gray is easily the winner over Chas. Miller for Sheriff, while Erwin Cummins retains his lead over Isaac W. Baum for district attorney. The vote for county commissioner on the Democratic ticket shows W. H. Ecker and A. P. Barnum to be the nominees, although it may require the official ballot to determine the result.

With Judge J. A. McIlvaine in charge, and under the supervision of Chief Clerk H. R. Campbell, the counting of the primary returns was

begun Friday noon. Fourteen clerks are assisting in this work all of whom were required to take the oath of office, after which Judge McIlvaine explained many of the provisions of the new primary law, and the reasons for bringing the ballot boxes to Washington, this being done in order to rectify any errors that might have been made by the election boards.

The returning board has a big job ahead of it, as it will be required to count the votes for all the county, city, borough and township offices of every party, in addition to the non-partisan ballots for Judge. They will also be required to count every spoiled or cancelled ballot and check up with the number sent out and if there should be any discrepancies to open the ballot boxes for proper verification.

EXONERATES THE ELECTION OFFICERS

Judge J. A. McIlvaine made inquiry on Thursday of two of the members of the election board of Union township, second precinct, why they had failed to bring in the ballot box as required by law. Enoch Barlow, judge of the election in that precinct, and George Brown, minority inspector, were the members of the board present. James Sabin, majority inspector, a justice of the peace, who it is said was responsible for the delay in bringing in the box was not present.

After the two representatives had made explanations the court exonerated them. It was not, however, until the court had informed them of their duty in obeying the law. The judge of election held from the first that the ballot box should be brought in, but it appears the other members of the board prevailed upon him. He told the court that Joe Marucci and Wagner in the firm was poked at the law requiring the boxes to be brought in. Mr. Barlow became ill after the election on Tuesday and the box was put in the hands of James Sabin. Mr. Barlow said the trouble over the question of bringing in the box had worried him sick.

Thomas J. Collins.

Thomas J. Collins died on Friday at his home in Belle Vernon, aged 58 years. Funeral Sunday at 1 p. m., with interment in Calvary cemetery, Coal Centre.

BROWN IS MADE CAPTAIN OF TEAM

At a meeting of the members of the Charleroi High School football team held on Thursday, Thomas Brown, a member of the Junior class, was elected captain of the team. The choice was a very popular one, and the team expects a prosperous season under direction of the newly-elected Captain. This morning at Chapel Capt. Brown was called on for a speech and he responded by asking for enough candidates to come out and make up a second team, and for the school membership to back the 'varsity in its strenuous campaign about to be opened. The first game of the season will be played at Charleroi Saturday afternoon, September 27, when the Connellsville team will be the attraction.

Prospects for the team appear to be very bright. The backfield is made up of veterans, with Brown, Weaver, against him. He told the court that Joe Marucci and Wagner in the firm was poked at the law requiring the boxes to be brought in. Mr. Barlow became ill after the election on Tuesday and the box was put in the hands of James Sabin. Mr. Barlow said the trouble over the question of bringing in the box had worried him sick.

The Jewish people of Charleroi will celebrate New Year next week. Two days are taken for this celebration and will begin at sundown Wednesday and end at sundown Friday. The exercises incidental to the holidays will be held in Italian hall, under supervision of a rabbi from Pittsburg.

COYLE THEATRE 2 DAYS ONLY MONDAY AND TUESDAY

ELKS ARE BUILDING ADDITION TO THEIR PRESENT CLUB ROOMS

CONN BROTHERS ENTER W. & J. COLLEGE

The Conn brothers, Kemp and Cecil, who were stars on Monessen's basketball team last winter, have entered Washington and Jefferson College. They came to Monessen from Point Marion, after finishing a three year course in high school at the latter place. It is expected they will be leading candidates for W. J.'s basketball and track teams.

GOOD PROGRESS OF THE LEGION CAMPAIGN

The membership campaign now being conducted by the American Legion at Charleroi is now making good progress. The campaign will be continued until Tuesday evening, September 23rd, when the Legion will have its meeting in the Municipal Building at eight o'clock.

The American Legion now have a committee in Congress pushing bills for the benefit of the soldiers. The Legion is not satisfied with the present manner in which the death benefits are being paid upon Soldier's Insurance Policies and expect to have further improvements made in these laws. A determined effort is also being made to eliminate the red tape which wounded soldiers have to wade through to secure further medical treatment, vocational training, or schooling. The Legion's National Headquarters will conduct an additional campaign for the benefit of the Legion and the public in general advocating one hundred percent Americanism and warning the public against the Russian and German Bolshevism.

Next Tuesday night's meeting promises to be an interesting and entertaining one as well as a business meeting. The news has gotten out that recollections of war time will be brought back to the soldiers by the Salvation Army which is going to be present with doughnuts.

Every returned soldier, sailor and marine invited and urged to be present.

HOLD SHOWER FOR RECENT BRIDES

The Isabelle Thoburn Class of the Methodist Episcopal Church held a shower at the home of Miss Gertrude McKenna Thursday evening, September 18th. The honor guests, Mr. Anna Cocain Hickey and Mrs. Anna Hendershot Hartman, recent brides were presented with beautiful pieces of cut glass by Miss Frances Hott, president of the class.

The prevailing colors were gold and white, decorations being golden rods and ferns. The evening was spent in music and games, after which lunch was served, covers being laid for twenty.

Banquet and Ball Room Will Be One of Special Features

FINE CULINARY ARRANGEMENTS

When the present plans of Charleroi Lodge, No. 494, E. P. O. E., have been completed that organization will have one of the finest club rooms in the Monongahela valley.

A few days ago the Charleroi Lumber company began work on an addition to the present building, plans for which were prepared by the late A. P. Cooper of Uniontown. The plans call for a two-story structure on Fallowfield avenue and one story in the rear. It will be of brick and erected on a lot 33x100 feet in size. It is proposed by the building committee, which is composed of Roland Brown, D. R. Hornell, J. B. Tussing, Charles Bateman and Hugh E. Fergus, to have the first floor fitted up for a large kitchen, a cooling department, as well as a commodious room for storage purposes.

The second floor is to be used for balls and banquets, and its appointments will be in keeping with the purposes for which it is intended. Many special features will be introduced in this room, possibly the most attractive being two huge fire places in which wood fires can be placed. Another feature will be the window arrangements, with an abundance of light, while trellis work artistically arranged will allow the room to be decorated to suit the occasion.

The committee has not worked out all of the details of the new addition, but these will be decided as the building progresses, and as apparent needs may present themselves. The Elks expect to make the club rooms very attractive to members and to their families, where small parties may be held at any time and on very short notice. The proposed addition will cost approximately \$15,000.

SHOWER HELD FOR MR. AND MRS. HERMAN

A shower was held in honor of Mr. and Mrs. John Herman at the home of the bride's mother Mrs. Frank Hough of Lookout avenue. About 40 guests were present and spent the evening in games and music. The honor guests were the recipients of many beautiful and useful gifts. Lunch was served by the hostess.

The ancient theory that laziness is a disease has bobbed up again. If the theory is correct the disease is evidently attaining epidemic proportions throughout the world.

MERCIER AND PERSHING

Richelieu (or Bulwer Lytton) said that the pen is mightier than the sword. It remains to be said, with equal brevity, force and grace, that moral courage is greater than physical bravery. Returning Pershing one of the great war captains of the ages, appeals to our patriotism as well as to the world-old and instinctive admiration for successful military adventure. Visiting Cardinal Mercier appeals to something higher still, for he has lived to prove that right is stronger than might and that moral courage can defy brute strength. Cardinal Mercier served mankind as well as the Belgians when he stood boldly forth to dispute the path of the Prussian beast. He had no army at his back, yet he did not quail, daring banishment to a German prison or the fate of Edith Cavell in his unbending attitude, his bold denunciation of criminal measures, his ceaseless fight for some approximation of justice and untiring effort to wring crumbs of concession from the merciless oppressors of his people.

Cardinal Mercier represents freedom and undaunted manhood as well as ecclesiasticism. Without military protection, in the midst of even bodily peril, he revived in action the saying of Socrates that no evil can befall a good man whether he be alive or dead. The sword of the insolent invader could destroy his body but could not reach his soul. It does not belittle the war career of Pershing, altogether commendable in its way and a lasting source of pride to his countrymen, to say that the war career of the Cardinal of Belgium appeals to some-

thing yet higher and finer in the human mind.

TERSELY PUT

In his telegram to Samuel Gomper, Governor Coolidge of Massachusetts speaks the voice of a nation that sees the right and knows no other course than to uphold it calmly and steadfastly.

"There is no right to strike against the public safety by anybody, anywhere, any time," he wrote. Tersely and simply put, the words express perfectly the truth that we are all coming to realize as the controlling fact in this era of strikes threatened and threatening. Every body of men has a right to advance its fortunes by every orderly means save only that it cannot jeopardize the lives and safety of the public. The policemen of Boston could not at once gain what they desired, therefore they turned over their city to thugs and rowdies. The case was an extreme example of childish vindictiveness and selfish spite. Thanks to the courage and plain speech of Governor Coolidge, it has served to clarify the minds of all—New York Tribune.

The grave social unrest in America, the imminence of dangerous industrial disturbances, the proneness of respectable people immediately to resolve themselves into lawless mobs should impress our crusading President with the seriousness of domestic issues and cause him to listen with reason to the views of a conscientious majority, lest while he fiddles on one string America become the first to enter upon that chaos which predicts for the world unless he—Wilson—has his own way.

King Ferdinand of Roumania is said to be favorable to the suggestion that Hungary be joined to his country and that he rule over both. The idea was formerly had of Ferdinand that he was a wholesome scholarly gentleman, noble and unselfish, is in process of revision.

Reports of from 200 to 300 deaths daily from cholera in Petrograd are not precisely an inducement to the Allies to occupy the city. This plebe in its way and a lasting resource of pride to his countrymen, to say that the war career of the Cardinal of Belgium appeals to some-

BIG STEAMER IS SOLD TO OIL CO.

Several experienced rivermen inspected the steamer John A. Wood on Friday at its landing at Alicia, a short distance above Brownsville. It is stated that the steamer has been purchased by the Standard Oil Company for use on the lower Mississippi river at Baton Rouge. The boat will be taken down the river as soon as convenient and will be rebuilt at the southern terminal. The John A. Wood was built in Pittsburgh in 1870 and has a tonnage of 687. It is 198 feet long, 40 feet beam and 7 feet depth of hold. It has compound machinery and when used in towing coal on the lower Ohio and Mississippi was considered among the best of the towing steamers. The boat was purchased by Capt. W. Harry Brown several months ago, and by him turned over to the Pittsburgh Steel company when he sold his coal holdings above Brownsville to that company.

LOCAL RIVER IS IMPORTANT TO MILLS

"The question of improving and keeping improved the Monongahela, Ohio and Allegheny rivers is not a local one. It is a national one. Steel rules the world and that is why the United States predominates among the world powers. The material that is shipped by the three rivers is vital to the steel industry of which Pittsburgh is the hub. We must see that these important waterways are developed to their fullest extent," says Lieut. Col. Harley B. Ferguson, United States Engineer in a recent interview.

"By means of comparison, take the building and cost of maintenance of the Detroit Channel. It cost the government about \$42,000,000 and the Canadian government spent many additional millions to build that waterway from the Soo down. The construction of a slackwater system in the Monongahela cost less than one-sixth of that amount, yet the tonnage in our local river is at least one-fourth of the gross tonnage of the Detroit Channel.

"The principal mineral sent through the Detroit Channel is iron ore and a large percentage of that ore comes directly to Pittsburgh. Now it is as necessary that the steel and iron plants in this district be supplied with coal as ore. One mineral is essential to the successful use of the other. When repairs or improvements are needed at any point in the Detroit Channel our Government does not hesitate to see that the necessary appropriation is forthcoming. Neither should it hesitate to furnish the amounts needed to improve our rivers.

"Few persons realize that the tonnage in the Monongahela is as great as probably any river in the world. When we stop to consider that a daily average of 52,000 tons of coal is towed in the local stream daily, we must admit that the river forms a vital part of our country's industrial activity."

"The importance of an extended program to enhance the value of our local rivers as navigable streams must not be overlooked. We must keep going," he said.

Swift can afford not to care a rap for the \$500 and costs imposed on his Cleveland manager for violation of cold storage law, but the public gains by the demonstration that the law can be enforced.

The Buick Dry Plate Clutch

The exclusive patented features of the Buick disc clutch minimize the effort and skill necessary in gear shifting, and at the same time provide a clutch that is absolutely smooth and positive in operation. Under this patented construction, the heavy rotating parts of the clutch are carried by the flywheel and only the very light parts are carried by the transmission, which accounts for the transmission gears not spinning after clutch is disengaged, thus preventing the clashing of gears in shifting from one speed to another.

The slightest pressure of the foot will disengage this smooth acting Buick clutch, which makes it especially popular with women drivers and those who drive much in congested traffic.

**Free Demonstration
and trial in your home**

You can prove to yourself that the Gainaday is the best electric washing machine. We say this without reservation, for simply phone us and we will send one of these remarkable washers and wringers to your home, where you can try it free of charge for two whole weeks. A demonstrator will explain the few things you need to know, and do the first washing for you. You can give the Gainaday a severe test; put in much soiled pieces or dainty lingerie and the result is the same—clean, pure washing results.

\$5

THEN \$5 DOWN—EASY PAYMENTS

After the trial if you're satisfied you buy a Pittsburg-made machine, keep it, pay the first small \$5 down, made and guaranteed by the Pittsburg Gage & Supply Co. An obligation to do this. We're so sure of the remarkable performance of the Gainaday that we are willing to make this liberal offer. Thirty days later the small amounts begin. The Gainaday is quickly paid for.
